

**The real story of a little boy  
an inspiration for all who  
have lost hope.**

# Vítek

diagnosed at 5 years of age :

**ADHD** - concentration disorder,  
hyperactivity

**CEREBRAL PALSY**

difficulty with the musculoskeletal system  
motorics, balance

**SLIGHT MENTAL RETARDATION**

Problems with speech, sleep,  
mental age = half of real age,  
ie now 2.5 years of age

## **Condition in March 2018 – Vítek 5 years 10 months old**

He speaks very badly, he can say two words at a time. He is unable to communicate with people around him..

He has problems with motoring and balance. When he starts run, he falls to the ground. He can't even stand on one leg for a little while. He is unable to do any sports.

He is very often ill, has very weak immunity. She has chronic rhinitis.

He sleeps poorly at night, often wakes up, has very restless sleep.  
He gets wet during the night.

He won't keep his attention, he can't watch TV or play with toys, or just a little while.

He has states of anxiety (distress) and anger.

## We try and test again and again

Various medicines recommended by doctors or healers

Herbs and herbs products

If there is something what looks it works it is for a while

The results of our efforts are close to zero

Basically, nothing helps and hopelessness grows

---

**Finally, in March 2018, we found a solution that pushed us significantly forward  
and, for more than a year, pushed us further.**

**Purely natural, it works on the basis of cell membrane renewal.**

## **We do also lots of other activities with Vitek:**

2x a year he visits SPA (each visit 4 weeks)

Every day he attends kindergarten

1-2x per week he goes to swim

1x a week ergotherapy

1x a month fyzotherapy in hospital

1x per three weeks logopedie (speech therapy)

# Condition in October 2018

Vitek is 6 years and 5 months old

He is able to talk slowly and use short sentences.

He runs without falling and an obstacle course runs.

He sleeps all the night and stops get wet.

He can compose puzzles for half an hour, watch TV, play himself.

Anxiety states and anger have disappeared.

# November 2018

---

**Vítek is 6 years and 6 months old**

**New Psychological Examination shows his mental age 4.7 but it should be 3.25 based on the first examination.**
